Investment Comparison

DNC Chit Savings vs Other Investment Options

Investment Type	Average/Effective Returns	 Risk Level	 Liquidity	 Flexibility & Control
 Gold Investment	Depends on market price	Medium - High	Available	No Control due to price fluctuations
 Mutual Funds	Market linked returns	High	Available	Affected by market ups & downs
 Bank Fixed Deposit (FD)	Low returns	Low	Lock-in period applies	Limited Flexibility
 DNC Chit Savings	Effective return with comparative benefit	Lower risk	Available when required	High flexibility and full control

Key comparison Highlights

Gold Investment

- Subject to frequent price fluctuations
- Returns are not stable or guaranteed

Bank Fixed Deposit

- Safe but offers very low returns
- Lock-in period restricts early access to money

Mutual Funds

- Directly affected by market volatility
- Returns may vary; no assured outcome

DNC Chit Savings

- Higher effective returns compared to traditional options
- Low risk investment
- Easy access to funds when needed
- Greater flexibility and complete control over savings
